

Students take part in the orientation program held in the Main Building.

Students move onto N.W. Campus

The Northwest Campus officially opened its doors Aug. 18 to about 300 preparatory students who went through an orientation program before the start of classes Aug. 25.

The newly renovated Main Building, one of seven buildings on the 8.7 acre campus located in Northwest D.C. near Silver Spring, MD, housed a major part of orientation activities, beginning with registration held in the gymnasium Aug. 18.

Students, their parents, faculty, staff and suitcases filled the newly painted rooms of the buildings. Some parents were a little confused about getting in and out of the campus and asked directions. Many were very enthusiastic about the school. "I think Gallaudet is a fine college. I think the environment here is the best for my children. It not only prepares them to fit in the world but helps them to know themselves better," said Peter Artinian, father of prep student Jeanette. Artinian also has a son who transferred this year to Gallaudet from the National Technical Institute for the Deaf.

While workmen continued to work on the landscaping, which they hope will be finished by the first of October, students were getting to know the cam-

pus and its programs during the six-day orientation program. They attended sessions on communication, curriculum, academic policies, dorm policies and student services. New Student Orientation program coordinators introduced students to the District, Silver Spring and the Northwest community, including trips on the Metro.

The Northwest Campus has 115 employees, and 71 of these are faculty and professional staff (31 of whom are hearing impaired). Both new teachers and those who transferred from the College and Pre-College were eager for the school year to get into full swing. "I'm excited about the new challenge I'm facing here," said Bob Westermann, who taught physical education at MSSD and who is teaching five health and physical education courses this year in the School of Preparatory Studies. "It's really a beautiful place. They've done a great job remodeling."

Many of the faculty at the Northwest Campus, particularly the coordinators of the various study areas, met during the summer to plan the curriculum and discuss potential problems. Some of the issues they identified were discussed by the faculty during their orientation Aug. 10 and 11.

On Aug. 10 the faculty discussed such things as grading, summer school for preps and promotion to the freshman class. According to Dean Ann Davidson, they agreed that summer school was needed to give preps a further opportunity to move into the freshman class the following year.

Several workshops were held Aug. 11. One topic of discussion was the use of the Dialogue Journal, an approach designed to improve students' English skills through role modeling.

New logo selected for Gallaudet College

Gallaudet President Edward C. Merrill, Jr. and President-elect W. Lloyd Johns have approved a logo for institution-wide use at Gallaudet. The logo is to be both an image maker and a unifying symbol for the many programs and services Gallaudet provides.

Director of Public Affairs Phoebe Simmons, who is serving as the coordinator for the development and use of the new logo, described the "tri-fold shape" of the symbol as a dynamic expression of the three major functions of Gallaudet: education, research and public service. "The symbol is expanding, growing, moving ahead like Gallaudet itself," she said.

The symbol, which also contains a hint of the letter **G**, will be used together with a "logotype" of the name Gallaudet College. Logo designer Peter Tasi of Tetrad, Inc. explained: "This symbol and logotype were conceived as a cohesive entity; that is, they are to be presented intact as inseparable elements reinforcing one another. The only variation will be the elimination of the word 'College' when applied to KDES and MSSD." Tasi, who is also designing the new exhibit for the Visitors Center, has designed many logos including those of the American University and the National Endowment for the Arts. He has been work-

ing closely with Gallaudet's Logo Advisory Board since January 1983.

According to Simmons, guidelines for the use of the new logo are expected to be ready for distribution by mid-October. Anyone wanting to use the logo before the guidelines appear must contact Simmons to obtain approval. Dan Skripkar, art director for College Educational Resources; Elaine Costello, director of the Gallaudet College Press; and Lolly Gilbert, director of Publications in the Office of Alumni and Public Relations are serving on a Guidelines Development Committee.

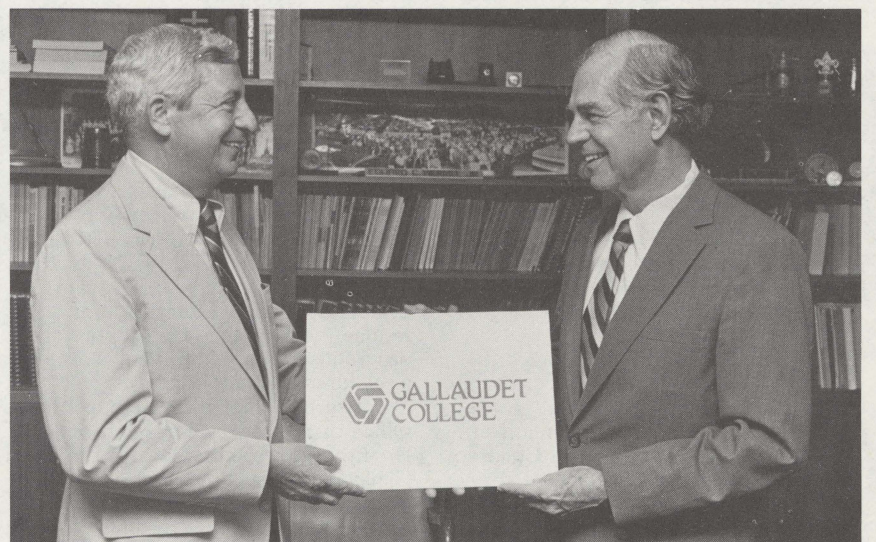

"It's very important that everyone at Gallaudet supports and uses the new logo as soon as it's feasible to do so," Simmons emphasized. Its use will be required as of Jan. 1, 1984.

The College seal will still be used on some official documents, but the logo is to be used on letterhead, business cards, news releases, exhibits, publications, signs, College vehicles and other materials distributed or owned by Gallaudet.

As a second way of unifying the image of Gallaudet, Merrill and Johns have also approved a new motto—"A Legacy and a Promise"—which will be used on many of the same materials as the logo.

The development of the logo was

coordinated through the Office of Institutional Advancement advised by a Logo Advisory Board: Simmons; Skripkar; Costello; Brenda Rawlings from Research; Jerry Jordan from Academic Affairs; Patricia Potter, formerly with Business Affairs; Stephen Hlibok from the Student Body Government; Ronald Nomeland from the Gallaudet College Alumni Association; and Barbara Petterson from Pre-College.

President-elect Johns and President Merrill display the new Gallaudet logo.

Student orientation begins at N.W.

continued from page 1

Faculty who choose to use the system, which has already been used on Kendall Green, will keep a journal for each student in which the faculty member and student will write back and forth. In the Learning Study Skills workshop, faculty talked about time management and how to study, and learned what resources were available to students having problems in these areas. They also learned about Instrumental Enrichment, an approach to improving thinking skills in hearing impaired adolescents. All of the faculty and professional staff received training in the English language program, and half of the new faculty will be working with the English department.

Students at the Northwest Campus are studying and living in the three large multipurpose buildings there which combine offices, classrooms and dormitory space. Buildings include barrier free areas for mobility impaired students.

Some of the buildings at the Northwest Campus have new names. Schreiber Hall, one of the larger buildings, was named in honor of Frederick Schreiber, a 1942 Gallaudet graduate and the first full-time executive director of the NAD. This building will house the Student Body Government offices, post office, telephone interpreting services and Student Special Services. The Main Building houses the dining hall, library, gymnasium and faculty offices, and Memorial Hall contains the auditorium. The Audiology Clinic, which will be in the basement of Memorial Hall, is still under construction.

Four smaller buildings on the campus will be used for a variety of functions. Webster Hall, a multi-purpose office building, includes the infirmary, Business Affairs, Student Affairs and a security office. Fusfield Hall, named for the first dean of the College, contains faculty offices, a math lab and conference room. It's the house nearest the Northwest Campus entrance from Kalmia Road. Burnes House, next door to Fusfield, will accommodate faculty offices and physical education facilities. It's named in honor of Byron B. Burnes, a Gallaudet graduate who

was president of the NAD from 1946-54.

Searing House, next to Burnes, will be the residence of Howard Busby, the assistant dean for Student Affairs. Busby will be available to student life personnel in case of emergency. The house is named in honor of Laura Searing (1840-1923) a deaf journalist and author.

A shuttle bus between Gallaudet, the Northwest Campus and the Silver Spring Metro is now in operation. Persons with questions or suggestions about shuttle service can call the Transportation Department, x5170.

N.W. Campus Shuttle

- * The N.W. Campus stop is at the Main Building.
- * The Gallaudet stops are at the HMB parking lot and College Hall entrance.

One new student brings "home" to the Northwest Campus.

GCRC-NW has first meeting

This summer the Gallaudet Community Relations Council-Northwest Campus was established. The council's formation was a natural continuation of the College's work with community organizations and residents since the College acquired the campus. The transfer of the campus to Gallaudet College was the subject of hearings before the D.C. Zoning Commission and area residents were involved in all of those meetings.

The new council held its first formal meeting on July 26 in the home of a campus neighbor, Romona Green. President Merrill welcomed the group and said that their work and "interest in the area culminated in better plans for the physical site." He thanked them for their patience during the renovation period. Council members were introduced to W. Lloyd Johns, president-elect, who stated that he will maintain the open line of communication that has been established between the community and the College.

The business of the meeting included an update on the renovations and a presentation by Dean Ann Davidson on the program at the new School of Preparatory Studies. D.C. Council member Charlene Jarvis welcomed Gallaudet as a neighbor in Ward 4 of the city.

The members of the GCRC-Northwest Campus Council are: Harry Jones of the Advisory Neighborhood Council, Ward 4A, Hosea Taylor of the Civic League of North Portal Estates, Sgt. Dennis Hyater of the 4th District Police Dept., Susan Davis of Neighbors, Inc., Sharon Villa of the Shepherd Elementary School PTA, James Johnson, Marilyn Binkley and Elizabeth Sadoff of the Shepherd Park Citizens Assn., and Matt Searls, Lolly Gilbert and Bette Martin of Gallaudet College. A student representative will be recruited this semester.

Personnel clarification

One bit of information was omitted from an article on Gallaudet's overtime and holiday pay policy which appeared in the Aug. 8 *On the Green*.

Non-exempt employees are not eligible for compensatory time in lieu of overtime. Additionally, in accordance with current policy, non-exempt employees are not eligible for compensatory time in lieu of payment for hours worked on a holiday.

Non-exempt employees who work overtime will be paid time and a half of all hours worked over 40 and double time for hours worked over 40 on Sunday. Non-exempt employees working on College-approved holidays will be paid double time for all hours worked.

Questions about overtime or holiday pay can be answered by Rene Newman, x5516 or Denise Sullivan, x5508.

A new student tests the Discovery Program course at the Northwest Campus. The program, which has been used previously on Kendall Green, is designed to build students' confidence and give them skills which they can use in other areas of their lives.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030 (voice or TDD).

Deadline	Program
10/15/83	NSF: Science and Technology to Aid the Handicapped
10/15/83	Kellogg Foundation: Kellogg National Fellowship Program
11/01/83	ADAMHA: Prevention of ADM Problems in Children and Adolescents

No Specific Deadline	NSF: Honors Workshops for Pre-College Teachers of Science and Mathematics
----------------------	---

No Specific Deadline	NSF: Materials Development for Pre-College Science and Mathematics
----------------------	--

ADAMHA research

The Alcohol, Drug Abuse and Mental Health Administration (ADAMHA) has announced the availability of approximately \$500,000 in new research grants for FY 1984. Applications are due Nov. 1, 1983 and March 1, 1984.

The awards will support research to evaluate preventive interventions to reduce the incidence of alcohol and drug abuse and mental health disorders in children and adolescents.

For further information contact the Office of Sponsored Research or Dr. Ernestine Vandervee, Ph.D., Chief, Clinical and Psychosocial Research Branch, Division of Extramural Research, Room 14C-17, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857, 443-4223.

Gallaudet College is an equal opportunity employer education institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Education.

A Message from the President

Welcome to the 120th year

Welcome to the beginning of Gallaudet's 120th year as a college! Although I will not complete this year with you, it is my privilege to welcome you to the new academic year and to wish each of you well.

I cannot resist reflecting on previous academic years on Kendall Green. For the most part they have been exciting and productive ones. During the past decade and a half, we have seen a vastly improved and expanded College curriculum emerge. Students can now select from a larger number of majors, and continuing efforts are underway to make curricula offerings more relevant in the lives of students and better related to each student's need to earn a living. The involvement of corporations in orientation to work, career days and Experiential Programs Off Campus have been of genuine assistance to students in obtaining employment once they finish their respective degrees.

The faculty has expanded along with the student body and has also become highly qualified. Most colleges the size of Gallaudet would be envious at the number of doctorates held by the faculty and of the commitment of faculty members to serving the special needs of the student body. Faculty are not only productive in the classroom but in very sophisticated research endeavors which are aimed at some of the crucial problems affecting the education and welfare of deaf people.

We are proud to have two nationally recognized demonstration schools as an integral part of the Gallaudet College organization. Both schools are recognized by parents as schools where students become motivated and learn more in spite of the challenge of deafness in the early years. Increasingly, both schools are sharing information, especially in the use of computer assisted instruction, with other schools.

Tremendous growth has occurred in the responsiveness of the College to a wide range of needs of deaf people through public service programs. Gallaudet College is not only visible but helpful in many settings across the United States, and these activities generate further respect and support for the College. We are now reaching professions (especially law and medicine), offering leadership training to some deaf adults, cooperating with other colleges and universities in offer-

ing programs to deaf persons in their areas and responding more than ever to the needs of parents who are searching to find appropriate programs for their sons and daughters.

As the College, the MSSD and the KDES, have grown we have seen commensurate developments in the physical plant, financial resources and administrative structure of the institution. We are particularly gratified that the College could obtain the Northwest Campus for the School of Preparatory Studies, a most fortunate development which permitted the College to respond to the needs of the young people who were born hearing impaired due to the rubella epidemic of 1964 and '65. I wish to express my deep appreciation to more people than I can name who have given untold hours of thought and work to make this beautiful campus materialize. The preps are there now, and they and their parents are pleased with it.

These developments underscore the national and international importance of the mission of Gallaudet College. It is an historic mission which has become a legacy, and it is also a promise to many hearing impaired people who are looking to this institution to assist them to grow, to learn and to become more independent adults. I wish to thank each and every one of you for the different but important roles which you have performed over the years in bringing Gallaudet College to this point in history. I hope you feel a great deal of ownership in the institution and some satisfaction for having made important contributions to it. We have been most fortunate over these years to have a good team made up of faculty, staff and administration. We have not always agreed on developments, but we have always respected each other and proceeded to get on with the job.

The years ahead are equally exciting. The Board of Trustees and the new President, Dr. W. Lloyd Johns, will generate new goals which constitute the missions of the institution and will continue to provide the essential financial support required to meet these goals. Setting and achieving new goals is not an easy task, but one which is essential. It is a task which not only gives Gallaudet College its nature but which makes America stand proud for reinforcing the rights and independence of hearing impaired people.

According to plan, the Merrills will move to Stonewood, our mountain home. The address is 34 Saunooke Road, Asheville, North Carolina, 28805. (From Asheville, take Exit 55 on Interstate 40, east on U.S. 70 to Jim's Branch Road on the right. Cross the bridge over Christian Creek and Interstate 40, and Saunooke is the first right.) Come, and we will welcome you to Gallaudet's Southeast Campus!

Frances and I wish to thank each of you for the many courtesies extended to us during our tenure here. Please be assured that we will continue our interest in hearing impaired people and in the vital role of this institution even though we will no longer be centrally involved with it.

Set some important goals. Respect each other. Have a good year!

Your friend and mentor,
Edward C. Merrill, Jr.

Gregg Reynolds, director of Design and Construction, welcomes people instrumental in the renovation of the Northwest Campus to a dinner celebrating the end of construction.

Gallaudet team goes to Ecuador

The first Leadership Training Program for deaf people in Ecuador, held this past June, was the start of an attempt to organize deaf people in that country on a national level.

Merv Garretson, special assistant to the president, and Maureen O'Brien, assistant to the vice president for Public Services, spent three weeks working with the Sociedad de Sordos Adultos frey Luis Ponce de Leon, a local organization of deaf people. The Gallaudet training program was requested by the Sociedad and funded by the private Inter-American Foundation. Sixteen deaf adults, including people from the distant cities of Guayaquil and Cuenca, participated in the program in Quito.

Both Garretson and O'Brien say that the training brought positive results. The group in Ecuador now has two goals—to develop a national census of deaf people and to establish a national association of deaf people for the country.

In Ecuador the Sociedad provides services such as adult education in reading, mathematics, sign language, sewing and other vocational technical areas to its members. It also is a social and athletic club as well as an advocacy center.

Margarita Hurtado, wife of the president of Ecuador, attended the opening ceremonies of the training program. She also serves as head of the National Institute of Child and Family, a private non-profit organization which has taken the lead in development of special education in Ecuador.

The training program had to reach across cultures and languages. "There were no lectures," said Garretson. "Instead, all activities were simulation games in management of meetings and group decision making."

O'Brien explained the training as "teaching the process." Each member had the experience of taking and giving assignments. The groups would select a reporter to explain how that particular exercise had gone. Games gave participants an opportunity to be both leaders and followers, and to do self-evaluation.

Eli Savanick, director of the International Center on Deafness, said that this program is "part of an ongoing cooperation with the country of Ecuador." Staff of the ICD have worked previously on projects in Ecuador, and a few students from Ecuador have studied on campus.

When Gallaudet first received the request for training, Savanick set up a task force. Members were Yerker Andersson, professor of Sociology and Social Work; Ed Corbett, director of the National Academy; Gil Delgado, dean of the Graduate School; Garretson; Tom Mayes, vice president for Public Services; O'Brien; and Nancy Pollock, adult basic education specialist with Continuing Education. Lou Brown, assistant director of the ICD, assisted with the Spanish translation of materials. The liaison between the task force and the Sociedad is Candy Bannerman, a former teacher from the New Mexico School for the Deaf and a resident of Ecuador for the past eight years.

Students find their way around the new campus and neighborhood.

Capitol tours available

The new Special Services office, under the jurisdiction of the Senate Sergeant at Arms, is now providing tours of the Capitol to handicapped people, including those with hearing impairments. The office will also be developing ways to make the House and Senate more accessible to handicapped individuals.

Special tours are available by appointment. For more information, call Brenda Velez at 224-4048 voice or 224-4049 TDD, or write U.S. Senate, Office of the Sergeant at Arms, Room S-321, Capitol Building, Washington, D.C. 20510. Persons may also contact their senator's office to request tours.

Archives installs TDD

The National Archives now has a new TDD number for hearing impaired persons. It is (202) 523-0774.

MSSD Eagles football begins in September

The MSSD Eagles football team will open its season on Saturday, Sept. 10 in a game against Riverdale Baptist. The game will be held at the Gallaudet football field starting at 3:00 p.m. The Eagles' second game of the season will be Friday, Sept. 16 against Severn beginning at 3:30 p.m. at Gallaudet.

Head coach Bob Westermann has been putting the team through practice during the past week. Last year, the Eagles posted a 5-4 record.

Schedules of other MSSD and College athletic events will appear in the Sept. 12 edition of ON THE GREEN.

No Sept. 5 OTG

On the Green will not be published during the week of Sept. 5 because of the Labor Day holiday.

The next issue to be published will be on Sept. 12. Anyone wishing to submit information for this issue should send it by Sept. 2 to On the Green, Alumni and Public Relations Office, Chapel Hall.

Fall computer classes announced

The following courses will be offered by Computer Services this fall:

• **Intro to DEC-land** (Sept. 12, 14, 16; 3-4:30; LW-11): This 4½-hour course will introduce the new computer user to basic commands needed to interact with the DECsystem-10 computer, various ways to find help and basic computer-related terms. The content of this course is a prerequisite to the classes on SOS, 1022, SPSS, Graphics and Document Preparation.

• **Tour** (Sept. 16; 2-3; HMB-118): This is a tour of the computer room and a description of some special terminals. There is time at the end for questions.

• **Apple** (Sept. 20, 22; 1:30-3; HMB-282): This 3-hour short course includes how to begin using the Apple, a short demonstration of capabilities and discussion of programs available. It will include hands-on experience.

• **SOS-Editing** (Sept. 26, 28, 30; 1:30-3; LW-44): This 4½-hour course discusses use of the SOS editor to create and edit files. Simple commands make correcting of information and programs possible. Previous orientation to the DECsystem-10 is required.

• **SPSS** (Oct. 3, 5, 7; 4-5:30; LW-11): This 4½-hour course is designed to give a basic understanding of and skills in using the Statistical Package for the Social Sciences (SPSS) software. SPSS is a tool for data analysis which is useful in all areas of social science research. Prerequisites: previous orientation to the DEC-10 and ability to use an editor (E.G. SOS).

• **Computer Languages** (Oct. 18; 1-3; HMB-282): This class will present a brief history of computer languages and an overview of several languages (e.g. FORTRAN, COBOL, BASIC, etc.) and their uses. The class makes no attempt to teach programming in any of the languages.

• **Graphics** (Oct. 26, 27, 28; 10-4; TBA):

Coach John Parker makes contact with the ball during the playoff game between Gallaudet and the team from Senator Boschwitz's office (R-MN). Gallaudet lost the game Aug. 15, 8-3, which took the team out of the playoffs. This summer Gallaudet has been part of the U.S. Senate Staff Club Softball League.

Weight Watchers may be offered

Weight Watchers, an established weight control organization, in conjunction with the Student Health Service at Gallaudet, is willing to set up a new Weight Watchers group on campus if there are enough (about 50) committed participants. Students, faculty, staff and

the community are welcome.

Weight Watchers requires that participants be at least 10 pounds overweight, based on insurance charts, in order to join. Initial membership fee is \$15 and the weekly meeting fee is \$6. Members will receive the Weight Watchers Personal Program manual, recipes, nutrition information and encouragement.

The Student Health Service will provide the meeting area, interpreters and scales for private weigh-ins. ARA Food Service has agreed to provide menu choices in the plan for students and those eating in the College Dining Hall.

Persons interested in joining Weight Watchers should drop a note to Regina Cassidy at the Student Health Service indicating what days and times are most convenient. Please respond by Sept. 9. Cassidy can be contacted at x5522 voice or x5888 TDD.

Jobs Available

Some of the advertised staff positions may already be filled. For updated information, call the JOB RECORDING in the Personnel Office, x5514 or x5520 TDD.
